BATES BRIEFING -- Communist China

Please look over copies in [ ] custody of papers furnished DDI for [ ] presentations earlier this week. Thrust for Bates probably should be: Where does cultural revolution stand now? Possibly Chou and govt types have withstood Mao/Lin pressure to make them go along with further purging; appears to be some grounds for belief purge has been slowed down, as Liu, Teng, Li still in place. Efforts to get Red Guards out of town, keep them from interfering with prod/ag. Chou has been a prime proponent of this, significant that authoritative editorial now has echoed his warning in only recent a major pronouncement.

BATES BRIEFING----- Vietnam

Please look over the material [ ] has which was furnished to DDI for [ ] presentations this week. Update or correct as necessary. Story Bates probably needs is: VC apparently shifting back to emphasis on primarily guerrilla strategy. Lost KIA 2,000 Prairie/Hastings, 2,000 Irving, 2,000 Paul Rkvere, 1,000 Attleboro; principal effort against allied combat formations past fortnight have been attacks in battalion strength or more on isolated companies, platoons. Effective, but VC taking equal or greater losses. Latest infiltration figures, latest counts on div hqs, regiments.

DRV - SAM figs--how many, how many <sup>fired</sup> ~~figs~~, how many kills; deployment toward DMZ. North Korean fighters.

South Vietnam----need a couple or three pages  
NSC format on where Constituent Assembly stands now.

BATES BRIEFING---Middle East

Need three to four pages where this dispute stands, specifically what we are doing for Hussayn and what he wants us to do. Classification on this is wide-open, and we have no basis for assuming that Pentagon will brief Bates on this.
